

# vizzle®

a rethinkEd product

"During this remote learning period, we were confident that Vizzle would be the program our parents and students could navigate with ease and our teachers would have data to report on IEP skills."

Stephanie, Administrator, North East Independent School District

## Curriculum

TEKS aligned PK-12 curriculum with lessons to prepare for the STAAR ALT-2 Assessment plus content in related services for effective planning and compliance.

## Data-Driven

Data is automatically collected and shared as students work through assigned lessons, recording results for IEP tracking and progress reports.

## Personalized Learning

Customizable student profiles allowing students access to lessons, fostering independence and success.

## Differentiated Instruction

Leveled lessons that can be customized or created using pictures from the student's environment creating access for all learners.

Vizzle provides flexibility and consistency.
