

# Support Young Science Learners

STEMscopes Early Explorer  
for Grades TK-1

STEMscopes Early Explorer is a great way to provide students with extra support as they transition from TK into Kindergarten and First Grade. With a focus on centers-based, hands-on learning, Early Explorer can be used as a main resource for PreK and TK classes, or as a supplement to your Kindergarten or first-grade science curriculum.

## Why Early Explorer?

- Center activities, big books, real-alouds, and more
- Teaches young learners to think like scientists
- Differentiation for STEMscopes Science Kindergarten and Grade 1
- Aligned to the Preschool Foundational Skills, bridging the gap to NGSS
- Fits into the Universal Design for Learning framework
- Can be used for preschool, TK, Kindergarten, or First Grade
- Available in English and Spanish
